Ideation Phase
Brainstorm & Idea Prioritization Template

Date	3 October 2026
Team ID	SWTID-2026-3047
Project Name	streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	4 Marks

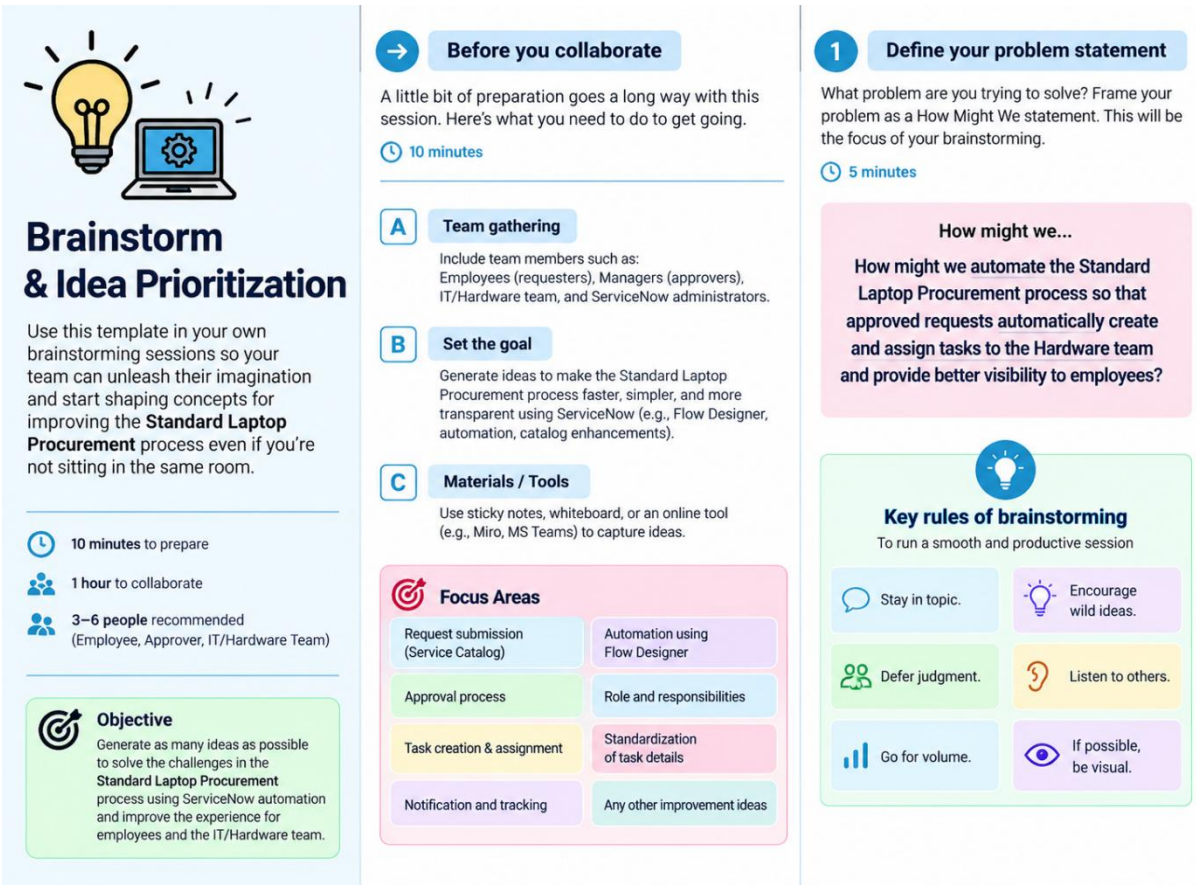

Brainstorm & Idea Prioritization :

Brainstorming provides a free and collaborative environment for the team to generate ideas for improving the **Standard Laptop Procurement** process. Team members can freely share ideas without immediately judging or rejecting them.

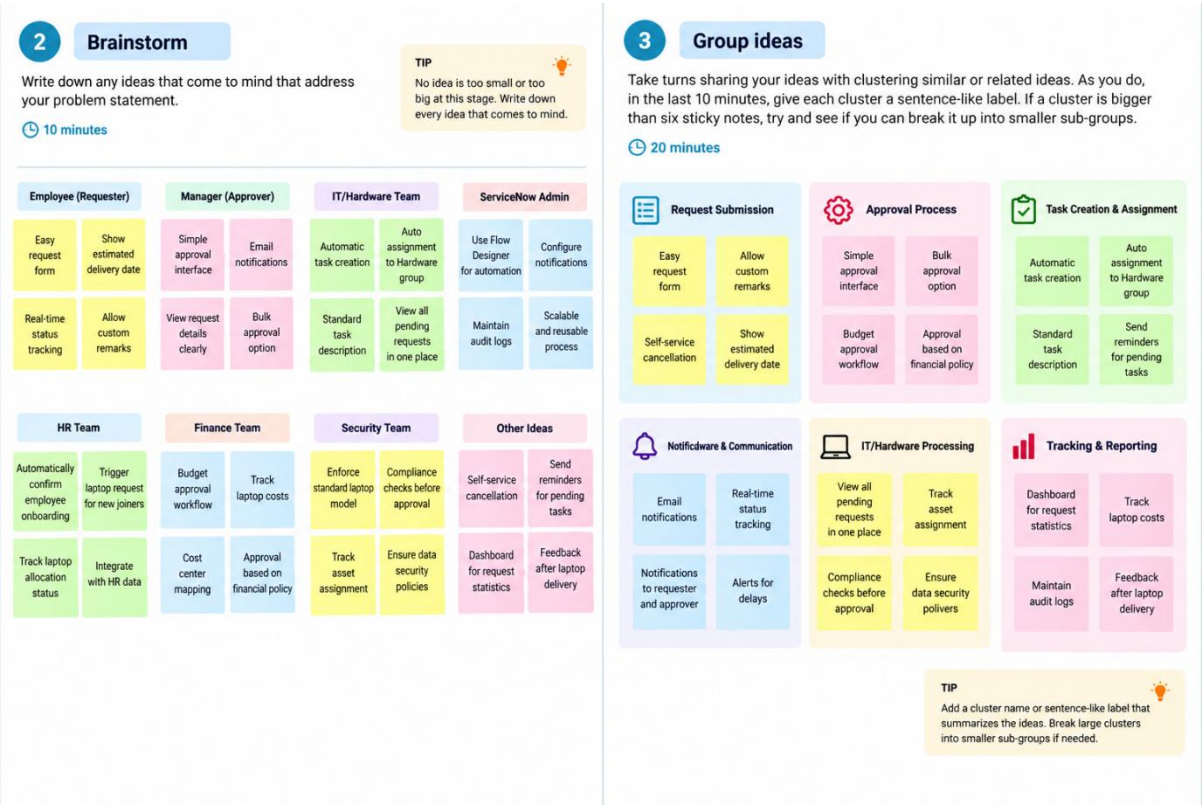

The brainstorming process focuses on identifying solutions to problems such as **manual approval follow-up, manual Catalog Task creation, incorrect or delayed assignment to the Hardware team, and limited visibility of request status**.

The team can explore different ideas such as **automating task creation using ServiceNow Flow Designer, automatically assigning approved requests to the Hardware group, standardizing task descriptions, and improving request tracking**. These ideas can then be discussed and refined to develop an effective automated laptop procurement workflow.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Step-2: Brainstorm, Idea Listing and Grouping

Step-: Idea Prioritization
